Statement Text

I got to know brother Abul-Yaman al-Khayr during the battle of al-Basirah. I was then frequented by brother Abul-Mughirat [illegible].

After our departing from al-Basirah [illegible] brother Abul-Faruq, whom was in intensive care and there I got to know the so-called Abul-Yaman al-Khayr. My relationship with him got stronger with time. He was always telling me to come visit him at his house and I would refuse. One day I accepted and went to his house and he had other brothers. When the brothers left, I told him that I wanted to go too. But he insisted that I stay and was insisting to give me an injection to calm me down, but I refused. But he insisted until he persuaded me and gave it to me. I lost consciousness. Then I woke up a little bit to feel him on top of me and touching with my penis while he was naked. Then, I lost consciousness again and woke up at the headquarters, but I could not find my mobile phone. I went to him and asked him where is my phone. He told me, "I don't know." He told me that he had pictures of me and a video clip. I told him what it is. He told me pictures show everything. I went back to the headquarters and hid the matter and did not speak to anyone about the matter to any of the brothers. Then, I went again and played an audio clip of him in which he was provoking me about the subject of the pictures. This is my testimony, and God is a witness to what I say.

Q/ How much of the [medicine] in the injection he gave you?
A/ Tramadol injection.
